

EFFICIENT NUTRIENT PUNCH!

Cherish your well-being with superfoods.

Each Extreme tablet corresponds nutritionally to 100 g of fresh vegetables, fruit and berries.

ARCTIC EXTREME: INGREDIENTS

SPIRULINA

At the UN World Food Conference in 1974, spirulina was named as the best alternative source of nutrition in the world. Spirulina is the most nutrient-rich plant in the world.

Hawaii is an ideal growing environment for spirulina. We use fresh-water Spirulina Pacifica, which has the best nutrient content and absorption rate compared to many other varieties. The water of its growing pools contains 94 different minerals.

promotes the maintenance of normal blood sugar levels.

Spirulina promotes normal energy metabolism and helps to maintain muscle mass when dieting.

BILBERRY

The bilberry was chosen as the berry of the year in 2013 in Finland.

It is our best-known super-berry. Wild bilberries are more nutrient-rich than cultivated blueberries. The anthocyanin concentration in wild bilberries is considerably higher than in pineapples and oranges, for example.

Maintains normal peripheral circulation.

The anthocyanins in bilberries help to protect the health and resilience of capillaries against oxidative stress and free radicals.

Product information / EN / 2024
